

Business Profile

CLAUDIO BAREATO

Claudio Bareato is a strategy advisor with hands-on experience and accountability for strategy definition, planning and execution. He is an information engineer and criminologist and has a deep background in the Security field.

His specialty areas are: Strategic technology innovation; Blockchain; Crypto; ICO/TGE; Cyber & Information Security; International Projects Management.

Claudio is the Chief Technology Officer at Blockchain District SA, a Swiss investment company leveraging Blockchain technology and Artificial Intelligence for digital assets management in the Entertainment industry.

He is the founder of Studio Ing. Bareato (www.bareato.ch), a Swiss-based independent provider of strategy advisory and business projects management services focused on helping organizations achieve their ambitious business goals through strategic technology innovation.

Claudio co-founded Safekee (www.safekee.io), a startup aiming to provide individuals with the best protection for their crypto assets (security & safety). Safekee is the world's first secure, decentralized and blockchain-based cryptokeys management system engineered to bring the security benefits of advanced hardware cold-storage technology to the masses.

Previously, he has worked in information security at the European Broadcasting Union (EBU) in Geneva. He has been an external consultant, business analyst and project manager at various multinational corporations. Prior to those positions, he has been the Deputy CTO and the Head of hpc production systems support team at the Swiss National Supercomputing Centre (CSCS), an autonomous unit of the Swiss Federal Institute of Technology Zurich (ETHZ). Before joining Marconi Communications SpA (now Ericsson Group) as a system design engineer, he initially began his professional career at the British Telecom Laboratories in Martlesham-Ipswich, England.

Claudio has attended executive trainings at the Geneva Centre for Security Policy (GCSP). Claudio holds a CISA – Certified Information Systems Auditor professional certification, and is a PMP – Certified Project Management Professional.

Claudio has an interdisciplinary academic background combining a five-years Master's Degree in Telecommunications Engineering at the University of Padova, with a Postgraduate Master in Forensic Sciences (Criminology – Investigation – Security – Intelligence) at the University of Rome 'La Sapienza'. He has been an exchange student at the University of Wales, Swansea (UK) with the Erasmus programme, and has achieved a Master in Information Technology at CEFRIEL – Polytechnic of Milan.

He speaks Italian, English and French. He is a member of the Southern Switzerland Committee at ASQ-ASC-SKO (Swiss Managers Organization), a senior member of the IEEE (Institute of Electrical and Electronics Engineers, USA), and a member of the Order of Engineers and Architects of the Canton Ticino, Switzerland.
