

Business Profile

Luigi Conti

Luigi Conti is currently VP Corporate Strategy & Development of Expert System, leader in Cognitive Intelligence solutions, and is a board member for various emerging startups in the AI area.

He held different management roles in major European and Italian companies and is currently supporting the development of emerging players in digital technologies and media. Involved in the foundation and then management of highly innovative companies in these areas, he helps taking critical decisions about their positioning and defining capital raising strategies.

Luigi graduated in Modern Literature at the University of Bologna where he developed his skills in semiotics with professors such as Umberto Eco. He also has an MBA at Bocconi University in Milan.

He enjoys reading and traveling.
